Skilled in logical reasoning, operating systems (including Kali Linux), software development, and hardware programming. Strong problem-solving abilities and a passion for innovation. Seeking a software development role to leverage skills and contribute to technological advancements.

## **EDUCATION**

#### B.Tech (CSE)

BENGAL INSTITUTE OF TECHNOLOGY CGPA: 8.86 2019 – 2023

#### S. T. INTER COLLEGE KATIHAR (XII) BIHAR BOARD

63%

2019

#### UT. M SCHOOL, MAHADEOPUR BIHAR BOARD

78%

2017

#### **SKILLS**

- Programming: C, C#, Java, Python, SQL.
- Web development: HTML,CSS,JavaScript, Angular, React Js, WordPress, Node.Js,PHP, MySQL, .NET, ASP.NET.
- Platforms: Windows 7, 8, 10, Linux (Kali, CentOS 7).
- · Adobe After Effects, Unity.

#### INTERESTS AND HOBBIE

- Interested in knowing about new technologies.
- · Interested in Ethical Hacking.
- Reading Articles on the internet.
- · Playing outdoor games like Badminton.

## **CO-CURRICULAR**

- Actively participated in the College hackathon, showcasing problem-solving skills and collaboration.
- Engaged as a member of the College hack-it-on Club, contributing to the organization of organization of technologyrelated events and workshops.
- Participated in the Smart India Hackathon, contributing to innovative solutions for realworld challenges.

#### **INTERNSHIPS**

#### Company: - Ahead Acit

Role: - Website Development Intern

- Interned at Ahead Acit, gaining practical experience in website development.
- Contributed to the development of websites using HTML, CSS, JavaScript, WordPress, and Angular.
- Assisted in creating responsive and visually appealing web interfaces.
- Worked collaboratively with a team of developers to ensure high-quality user experiences.

#### TRAINING AND PROJECTS

#### • Gaming Website: - Learning Through Games

Developed and launched the interactive educational gaming platform "Learning Through Games" (http://learnthroughgames.000webhostapp.com) utilizing Unity for game development, PHP for backend functionality, MySQL for secure and efficient database management, and HTML, CSS, and JavaScript for an engaging user interface.

#### . Training in Ethical Hacking at Udemy.

Completed a comprehensive 45-day training program on Ethical Hacking through Udemy, gaining expertise in identifying vulnerabilities, penetration testing, and implementing security measures to safeguard digital assets.

## Online Workshop Project on Arduino (Bluetooth Control Car) by IIC-SMIT

Spearheaded a mini online workshop focused on Arduino, specifically building a Bluetooth-controlled car. Instructed participants in hardware assembly, Bluetooth module configuration, Arduino programming, testing, troubleshooting, and provided demonstrations for remote control operation.

## Smart India Hackathon - Smart Attendance System (Facial Recognition):

Collaborated on a cutting-edge Smart Attendance System using Facial Recognition technology. This system streamlined attendance tracking in educational institutions, reducing administrative workload and enhancing accuracy.

Implemented OpenCV and Python for precise facial recognition capabilities. Used a MySQL database for secure and efficient data management, ensuring accessibility and integrity of attendance records.

#### Training on Competitive Coding by Academy of Skills Development:

Completed an intensive training program focused on honing competitive coding skills, gaining proficiency in algorithmic problem-solving, data structures, and optimization techniques. This training equipped me with the ability to excel in coding competitions and technical interviews.

### Google IT Support Professional Certificate:

Successfully earned the Google IT Support Professional Certificate, demonstrating proficiency in a wide range of IT topics including networking, system administration, security, and troubleshooting. This certification validates a strong foundation in IT support practices and principles.

## Cutopies Clothing Brand Website:

Developed a visually appealing and user-friendly WordPress website for Cutopies (cutopies.com), a clothing brand. Utilized themes, plugins, and customizations to showcase products and enhance the online shopping experience.
